

During August 2022, the industrial producer price index registered an increase of 3.64 per cent when compared to the corresponding month of the previous year.

## Industrial Producer Price Indices: August 2022

Cut-off date:  
26 September 2022

### Annual comparison

When compared to August 2021, the industrial producer price index increased by 3.64 per cent. Price increases were registered in all the main industrial groupings except energy. The highest increase was registered in consumer goods (8.54 per cent) followed by capital goods (3.27 per cent) and intermediate goods (1.63 per cent).

Industrial producer prices for the domestic market increased by 9.39 per cent. Price rises were recorded in the intermediate goods (20.82 per cent), capital goods (14.68 per cent) and consumer goods (10.58 per cent).

Non-domestic prices increased by 0.10 per cent. The prices of goods destined to the non-euro area rose by 0.46 per cent while those destined to the euro area dropped by 0.60 per cent (Table 2).

### Monthly comparison

During August 2022, the industrial producer price index increased by 0.65 per cent when compared to July 2022. Consumer goods and capital goods rose by 3.15 per cent and 0.13 per cent respectively. A drop of 0.73 per cent was recorded in the intermediate goods. There were no price changes in the energy sector.

Domestic market prices increased by 0.01 per cent due to an increase of 0.04 per cent in consumer goods.

Non-domestic prices increased by 1.08 per cent. The prices of goods destined to the non-euro area rose by 1.77 per cent while those destined to the euro area declined by 0.22 per cent (Table 3) ■

Note: The calculation of growth rates from the indices table may differ slightly from the published growth rates due to rounding.

## Methodological Notes

1. The Industrial Producer Price Index (IPPI) monitors the changes in selling prices of all leading products within a sample of around 80 large enterprises which account for over 80 per cent of the total industrial turnover.
2. The pricing point for the monthly price collection is the 15<sup>th</sup> day of the month or the nearest trading day prior to that date.
3. The methodologies and guidelines used are set by Eurostat and the International Monetary Fund (IMF).
4. Commission Implementing Regulation 2020/1197 specifies that it is the objective of the industrial producer price index to measure the development of transaction prices from the point of view of the producer. The observed producer price is the basic price that excludes VAT and adds subsidies on products received by the producer.
5. Euro area exports are transactions between Maltese enterprises and enterprises within the euro area. The euro area includes Austria, Belgium, Cyprus, Estonia (from 2011), Finland, France, Germany, Greece, Ireland, Italy, Latvia (from 2014), Lithuania (from 2015), Luxembourg, the Netherlands, Portugal, Slovakia, Slovenia, and Spain. These are classified as 'non-domestic euro-area'. The 'non-domestic non-euro area' covers transactions between Maltese enterprises and enterprises within the non-euro area. Examples include the USA and Sweden. The latter country is in the EU but does not use the euro currency. Transactions among local resident enterprises are considered 'domestic'.
6. The objective of Main Industrial Groupings (MIGs) is to provide an activity breakdown of industry using the internationally recognised classification of economic activities (NACE Rev. 2 Sections B, C, D and E) in terms of demand-based products: intermediate goods, energy, capital goods, durable consumer goods, and non-durable consumer goods. These regroup NACE Sections B to E and cover the following economic activities: quarrying, manufacturing, electricity and water.
7. Figures for the last three months are to be considered provisional and subject to revision. However, in exceptional cases, past data may also be revised.
8. The figures in this news release are unadjusted, that is, there are no working-day or seasonal adjustments.

12. Weighting structure by Main Industrial Groupings:

Main Industrial Grouping (MIG)	Total (Flow)
Intermediate goods	34.7
Energy	14.9
Capital goods	17.6
Consumer goods	32.8
Durable consumer goods	2.0
Non-durable consumer goods	30.8
